Genius Spiral Staircase *Square or circular spiral staircases*

The Genius kit staircase combines steel (powder coated or stainless) with timber (ash or beech – in a variation of stains). As a kit system this stair generally is used as a secondary staircase with a diameter of between 1.1 and 1.6m available in a collection of styles. This product sheet aims to show you the options available, however if you have any questions please do not hesitate to let us know.

Centre column barrel options: Powder coated white, silver, coppery black or chrome (left to right)

Or matching timber barrels

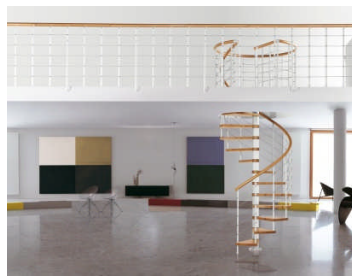

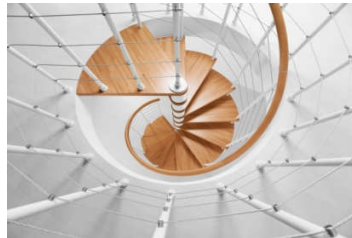

COMPLETE
STAIR
SYSTEMS
